Watir

21BCE020

To demonstrate regression-based testing using the Watir tool.

```ruby
require 'watir'

browser = Watir::Browser.new :safari
browser.goto
'https://www.ruby-lang.org/en/documentation/installation/'

search_box = browser.text_field(name: 'search_query')
search_box.wait_until(&:present?)
search_box.set 'Hello, Watir!'
search_box.send_keys(:enter)

browser.wait_until { browser.title.include?('Hello, Watir!') }
puts "Page title is: #{browser.title}"
browser.close
```

Result:
